

COMMUNICATIONS TECHNOLOGY CAREERS

QUESTION 1

Only half of the fields below are directly related to the Communications Technology (CT). Which ones?

Hint: There is only one CT field per row.

<ul style="list-style-type: none">• Graphic design• Archeology• Audio production• Computer animation• Forestry• Traditional animation• Dentistry• Construction• Web design• Music• 3D Modeling• Computing programing	<ul style="list-style-type: none">• Medicine• Video production• Small business ownership• Nursing• Game design• Banking• Photography• Computer networking• Welding• Application Development• Floristry• Social Work
---	--

QUESTION 2

List at least 15 careers related to any of the CT fields above. Give a single line description of each field.

Example:

News camera operator – Individual records video (and audio) of news events for television or online distribution.

QUESTION 3

For three non-CT related fields from Question 1, give a related career where skills related to CT would be useful.

Example:

Nursing – A nurse working for a public health unit may need to create a brochure related to a specific health topic. Graphic design skills would be helpful.

QUESTION 4

For three CT-related careers that you listed in Question 2, research the following information:

- Approximate salary
- Required education
